

StrickWärme

«StrickWaerme» – Association

«KnitWarmth – helps people on the move».

Founded in 2015, KnitWarmth has dedicated itself to two key goals:

Direct humanitarian aid

KnitWarmth wants to help and support people, who have been displaced due to war, hunger and suffering. Together with our partner organizations, we develop projects in numerous countries affected by the current refugee crisis. Our signature features are beautifully knitted goods, which are created and donated by our community. On many occasions we were able to witness, that our handmade hats, scarves and puppets not only bring physical, but also emotional warmth. Currently we are mainly active in the Middle East as well as Eastern Europe (e.g., Jordan, Lebanon, Iraq, Croatia and Greece).

Raising awareness

We aim to allow children in Switzerland to discover alternative views on serious and challenging topics such as conflict, refugees and asylum policy. For this purpose we visit schools, give lectures to classes, work on projects with teachers and are in the process of completing a children's book.

“We are committed to KnitWarmth, because it is invaluable to see tired and traumatized children forget the reality around them and smile about the emotional warmth they received”

Alfreda & Rashid,
Co-Presidency of
KnitWarmth

How could you support our association?
We are always in need of knitted goods, financial support/sponsoring and motivated supporters, who want to be actively involved in our projects.

On our website and Facebook page we regularly post updates about our ongoing work and the donations we need for specific projects. Do you fancy to knit for us? Grab your needles and yarn and help us to bring joy to refugee children. On our social media sites you will get information about the collection or delivery address for your donations.
